PROJECT

Employee Performance Evaluation System:

Employee Performance Evaluation System Designed and developed a web-based application using HTML,CSS, Javascript,PHP and MYSQL to evaluate employee performance effectively. The system features role-based access for Administrators, Evaluators, and Employees. Administrators can manage departments, designations, tasks, and users, while Evaluators assess employees based on task efficiency, timeliness, quality, and accuracy. Employees can submit progress reports, which serve as the basis for evaluations. The system streamlines performance tracking, ensures secure data management, and enhances decision-making through user-friendly interfaces and comprehensive analytics.
